Forecast for Friday 15 Sep 2023

Weather: Dry on Friday morning but some patchy light rain will begin to affect southern ranges in the afternoon. Cloudy at times during the day, particularly for areas west of the A9. A few spells of sunshine possible towards the Aberdeenshire hills. Rain becoming more persistent and spreading north during the evening.

Chance of cloud-free hill tops above 800m: 80% decreasing 60% later in the afternoon as lower cloud spreads north.

Low Cloud and visibility: Patchy low cloud over some of the summits in the morning but generally a lot of clear weather and good views, especially around northern ranges towards Loch Muick. Patchy becoming scattered or broken cloud forming above 600m around southern ranges by mid-afternoon.

Met Office Aberdeen Meteorologist's View
Feeling cool on the summits but winds becoming quite light on Friday.

Forecast for Saturday 16 Sep 2023
Weather: Perhaps cloudy with some light rain and drizzle at first on Saturday but improving from the north during the morning with some sunny spells for most during the afternoon. Feeling cooler in fresh northerly breezes.

Maximum wind: North 10-20mph.

Chance of cloud-free hill tops above 800m: 70% improving to 90%, cloud lifting from the north.

Low Cloud and visibility: Scattered low cloud around western ranges in the morning will soon lift and clear with good views likely for all areas.

Temperature: **Glens:** Plus 5 rising to 13 Celsius.
At 800m: Plus 5 Celsius.
Freezing level: Above all summits.
